

Professional Fast-Track

Intensive English Immersion

Professional Fast-Track is a programme which offers two training options of total immersion English for key talent, managers and professionals, in organisations.

The immersion courses are individual (1-1) and are designed for people who need to achieve substantial progress in English, as quickly as possible.

These intensive immersion courses are suitable for complete beginners to advanced learners of English. All courses begin on Mondays and can be booked at any time of the year, depending on availability.

Your English Course

The Professional Fast-Track Courses are individual (1-1) complete-immersion English programmes designed for key personnel in organisations. These immersion courses deliver rapid progress through a blend of implicit and explicit teaching methods. Being able to understand and use English in the same way as a native speaker gives you an enormous advantage in both business and social contexts when understanding others and communicating your message is crucial.

Research has shown that one of the best ways to achieve command of a second language is by following an immersion course of study where you, “learn naturally” and “develop native speaker processing of the language”.

Learning a second language through immersion programmes is an efficient way of developing your ability to understand and express yourself. The immersion method is enjoyable and relatively easy for the trainee because you learn by context and example in real situations. These courses are all individual so your programme can focus uniquely on what is important and necessary for your particular needs.

Express 45

This is a one week course providing a minimum of 45 hours of training. This concentrated immersion course is designed for people with limited time who need to boost their level of English quickly. The 5 day (Monday-Friday) intensive programme easily allows you to integrate English training into your work schedule.

Professional Plus

This course offers 130 hours of complete-immersion training over two weeks and one weekend. Extra weeks can be added to extend this programme to three or more weeks as required. Each extra week includes a weekend programme and provides a further 65+ hours of training.

For the more advanced course participant this substantial training programme is an opportunity for in-depth study and practice whilst for beginners or less advanced students the course provides a solid foundation of English.

Please Note:

Both courses start on Mondays and finish on Fridays, so we suggest that you plan to arrive in the UK, Liverpool or Manchester airports, on Sunday evening and arrange your departure for Friday evening or Saturday morning. We will meet you on arrival and take you back to the airport for your return flight at the end of your course.
